## SUIT

# ALTERNANZA SCUOLA-LAVORO 2018/2019

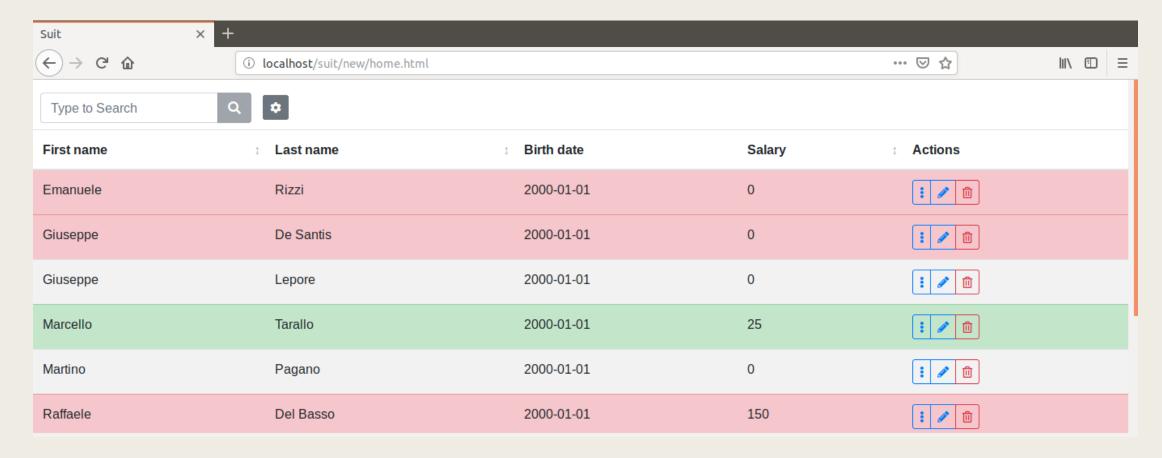

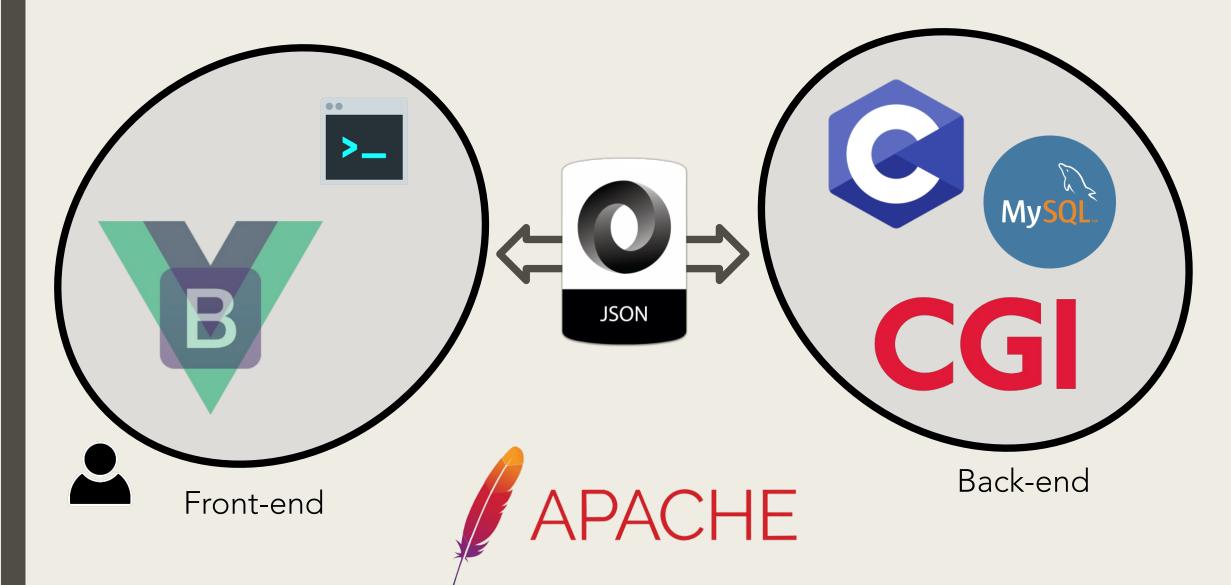

#### What is «Suit»?

Suit is our HR management web app that aims to simplify the process of finding and hiring employees.

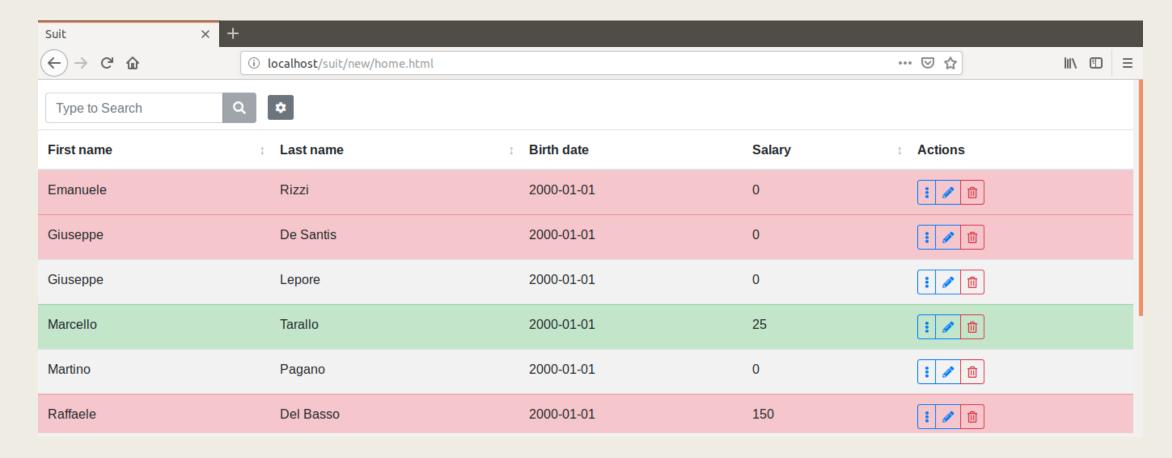

#### How is it made?

#### How does it work?

The software has a top section which contains the search bar and the filter panel, and the main section which shows the candidates in a table.

#### Search and filters • Search bar

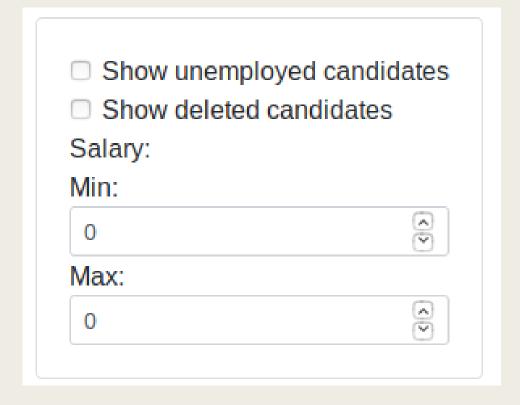

The search bar allows you to search for a candidate by first name and last name using the incremental search method *(case insensitive)*.

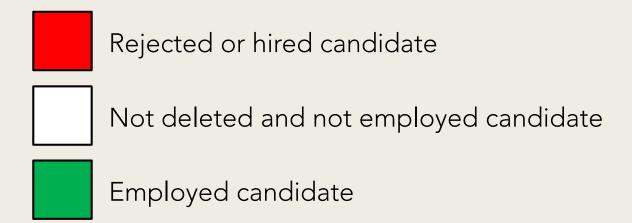

#### Search and filters • Filters

The following panel allows you to apply and combine filters for a more detailed search.

### Rows and candidates

Roberto	Clemente	2000-01-01	0	
Simone	Cacciapaglia	2000-01-01	0	: / 🗓
Simone	Verna	2000-01-01	0	

#### Action list • Details

This button allows you to see all the candidate information.

Giuseppe	De Santis	2000-01-01	0	
Giuseppe	Lepore	2000-01-01	0	
Birth Empl	I name: Giuseppe Lepore th date: 2000-01-01 ployed: No Salary: € 0			

The row expands and shows the following information:

- Full name;
- Birth date;
- Whether he/her is employed or not;
- Salary.

Coming soon:

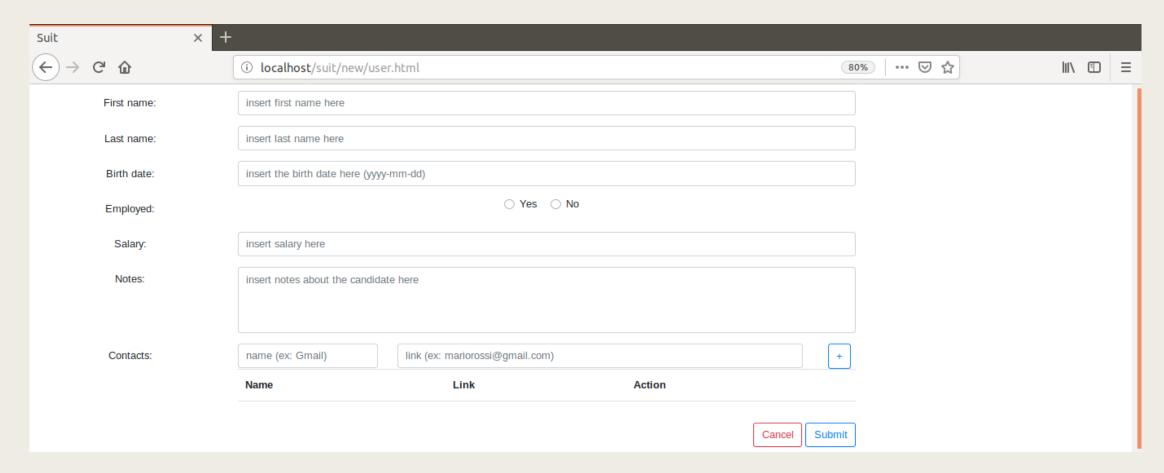

- Contacts;
- Notes.

#### Action list • Candidate modification

This button lets you edit the candidate information.

#### Action list • Candidate deletion

This button lets you delete the candidate. It will still be possible to see the deleted candidates through the filter panel.

Delete candidate	×
Are you sure?	
	Cancel

#### Conclusions

Our software has the goal to help the company with the hiring process.

Coming features:

- Add, edit and remove a candidate;
- Log-in system;
- New filters.

The app might be updated in the future to allow to manage all the employees becoming a more general tool for the company.
